CommercePro

Key Features

- **Collect-Then-Ship:** Secure payment collection before shipping with Commerce Pro's feature.

- **Auto Assign Sales Categories:** Automatically assign item sales categories, particularly beneficial for businesses with extensive catalogs.

- **Quick Kits:** Streamline kit assembly without Acumatica's Kit Assembly screen through Commerce Pro's feature.

- **Kit Number Display:** Keep kit quantity information up to date in Acumatica Cloud ERP for improved inventory management.

- **Kit Price Calculator:** Easily manage fluctuating kit prices in Acumatica Cloud ERP with dynamic price adjustments based on component changes.

- **Multi-Website Support**: Expand sales channels by adding multiple websites as branches in Acumatica Cloud ERP with customized parameters.

- **AWS S3 Images:** Reduce Acumatica storage usage and share image URLs across multiple eCommerce channels by storing product images in AWS.

- **Dynamic Merchandising:** Organize attributes into sections for improved product presentation.

- **Dropship Tracking:** Enhance visibility by adding tracking information at the Purchase Order level.

Differentiators

✓ **Advanced Analytics:** Commerce Pro delivers robust reporting for deep operational insights, enabling data-driven decisions for higher profitability.

✓ **Tailored Buying Experiences:** Craft personalized journeys for customers with Commerce Pro. Optimize sales, streamline orders, and enhance loyalty through customized interactions.

✓ **Precision Order Processing:** Commerce Pro offers expert quantity validation and flexible editing for precise control, boosting customer satisfaction and operational efficiency.

Competitor Analysis

✓ **Bridge Acumatica's Limitations:** CommercePro fills in the gaps left by Acumatica, ensuring your business thrives by addressing crucial needs.

✓ **Cost-Effective Customization:** Avoid the expense and time investment of customizing Acumatica with CommercePro's affordable alternative.

✓ **Effortless Integration and Streamlined Operations:** Seamlessly enhance Acumatica's capabilities with CommercePro, simplifying and streamlining operations without a lengthy implementation process.
